Women Assistant Professors and Postdocs invited to attend campus-wide discussion on career development

Sponsored by the Carolina Seminar Series, a focus group discussion will be held during which we invite you to share your career development experiences at UNC. The goal of this discussion is to identify barriers and stressors as well as resources that impacted (negatively or positively) your academic productivity and personal well-being at UNC.

Differences in experience as a function of discipline and racial/ethnic background are of particular interest. We encourage women from all departments to attend the following session:
